

Parul Jayakar, M.D.

Dr. Parul Jayakar is an Adjunct Assistant Professor at the Dr. John T. Macdonald Foundation Department of Human Genetics at the University of Miami Miller School of Medicine in Miami, Florida. She is also Director of the Department's residency program. Dr. Jayakar is board-certified in Pediatrics, Clinical Genetics, Clinical Cytogenetics, and Clinical Biochemical Genetics. She is a provider for the regional newborn screening program, and cares for infants and children with inborn errors of metabolism. She has special interest and extensive experience in evaluating children with suspected neurogenetic and metabolic disorders. She collaborates with experts around the world in the diagnosis and research of rare, complex, genetic conditions.
